Circular 0043/2013

To BOARDS OF MANAGEMENT OF PRIMARY SCHOOLS

Primary School Vaccination Programme and

MMR (measles, mumps, rubella) Vaccination Catch up Campaign in 2013/2014.

The Health Service Executive (HSE) has asked the Department of Education and Skills to circulate to the Principals of recognised schools the attached letter to inform schools of the HSE primary school vaccination programme for the 2013/2014 school year.

The Minister for Education and Skills acknowledges the continued support by school management in preventing and responding to public health concerns.

Further information about the vaccinations contained in the school vaccination programme 2013/14 is available at <u>www.immunisation.ie</u> and the HSE dedicated website <u>www.hpv.ie</u>. The Department's website <u>www.education.ie</u> under National Emergencies/Public Health will provide a link to the HSE websites

Primary School Vaccination Programme 2013/2014

Dear Principal,

This letter is to inform you of the Health Service Executive (HSE) primary school vaccination programme in 2013/2014.

1. School vaccination programme

All children aged 4 -5 years of age should receive a booster dose of diphtheria, pertussis (whooping cough), polio and tetanus (the 4 in 1) vaccine and a second dose of measles, mumps and rubella (MMR) vaccine. To date these vaccines have been given by HSE vaccination teams in primary schools in most parts of the country and in the remainder by general practitioners in their surgeries.

As a review of data from Ireland and from other countries strongly suggests that provision of vaccines through school based programmes results in significantly greater vaccine uptake, most areas will provide a school based service for these routine vaccines in 2013/2014 (see overleaf for more details).

2. MMR (measles, mumps, rubella) Vaccination Catch up Campaign

As part of Ireland's commitment to the World Health Organization's European measles elimination strategy the HSE has decided to offer a dose of MMR vaccine to all pupils in primary schools in 2013/2014. This is a one off campaign in response to large outbreaks of measles in Ireland and Europe. These outbreaks have occurred because some young people have not received the recommended two doses of MMR vaccine. This catch up campaign will be delivered from September 2013 alongside the routine immunisation programme and may require additional time depending on the demand.

Information packs for these vaccination programmes are currently being prepared and will be distributed to schools in the coming weeks.

I would like to thank you in advance for your cooperation in the delivery of these vaccination programmes. The HSE vaccination teams will work with you to ensure these take place as efficiently as possible.

Should you or any parents require further information please visit <u>www.immunisation.ie</u> or contact your local immunisation office (phone numbers overleaf)

Yours sincerely

Dr Kevin Kelleher Assistant National Director of Health and Well-Being - Health Protection, Health Promotion & Child Health Medical Registration Number 19719

Primary Schools Immunisation Programme Schedule 2013/2014

Immunisations	Recommended Age	Target Population	Delivery of Vaccinations 2013/2014
4 in 1 + MMR2 (<i>MMR1 given at 12</i> <i>months</i>)	4 to 5 years (2 injections)	65,000	 HSE delivered to children in junior infants in 30 LHOs (Local Health Offices) GP delivered in 2 LHOs*
MMR catch-up 2013/2014	Age 4-12 years (1 injection)	500,000	HSE delivered to children in senior infants to sixth class.

* Donegal and Sligo /Leitrim

Please note that for vaccination sessions to take place the HSE teams will require

- Use of a large room such as a hall/indoor sports court. In choosing this area it would be very useful if there was a separate entrance and exit.
- Hand-washing facilities
- Tables and chairs for vaccinating teams (depending on size of school and vaccinating team)
- Chairs or mats for one class of students at any one time
- A liaison member of staff or a designated student to call students from class at the appropriate time for vaccination and return them to class in an orderly way after vaccination
