

MEET OUR SPONSORS

CONFERENCE SPONSOR

A simple promise, built on TRUST is at the core of Allianz's business. Allianz staff are committed to helping our policyholders and meeting their needs quickly and sensitively at a time of crisis.

Allianz is one of the largest insurers in the world, and is the leading school insurer in Ireland, something we are immensely proud of. We have established this position through our dedication to supporting schools throughout Ireland, and that will continue to be the cornerstone of our service to our school customers. SEMINAR SPONSORS

Nearly 40 years in business, EducationStore by Compupac provides IT solutions to all education institutions nationwide. We want to make sure principals, teachers and end-users have access to technology specialists for the education sector and who talk their language. From taking the worry away from principals who don't have in-house technical experts to providing whole-school ICT solutions for newly-opening schools, EducationStore can be a single source for all of your ICT requirements.

Based out of offices in Sligo and Donegal, we supply, install and service nationwide. With the advancement of video conferencing we can provide demonstrations via online meetings with school decision makers. This helps to keep our costs down and offer our customers unbeatable prices. With faster internet speeds, we can provide support remotely. All our products come with manufacturer's warranty, so if it's onsite warranty or a collect and return warranty, we've got you covered. Our installers and support team are based in all 4 provinces, so we have the team to back up our solution portfolio nationwide.

We are Cornmarket.

We're the largest Public Sector financial services broker in Ireland. We have just under 220,000 customers with over 440,000 policies and with nearly 50 years' experience, we have been helping public sector employees with their financial needs. Everything from car, home, travel and health insurance to pensions and retirement planning, income protection and life insurance. We help public sector employees on their financial journey throughout each of life's stages. We work with over 40 public sector unions, associations and employers to negotiate excellent value financial products on their behalf. We cover all of the insurance and financial needs of public sector employees. We're passionate about making a positive difference to the wellbeing of the Public Sector community in money, life and family whilst respecting our environment. We help the people who help everyone else.

Managed Print Solutions

EMS Copiers has worked alongside the education sector for over 50 years. Advising, supplying and servicing their print requirements. EMS is aware that each school is different, and rather than take a linear approach EMS takes the time to get to build a relationship with the school and specify issues that the school wants to solve. This enables the team at EMS Copiers to tailor a cost effective solution that will give the school or college confidence that their print environment is in safe hands. <https://www.emscopiers.ie/ems-copiers-working-with-the-education-sector-for-over-50-years/>

The Institute of Child Education & Psychology (ICEP) Europe has been supporting educators online for 20 years. We have trained more than 25,000 teachers and other professionals from over 60 countries worldwide.

Our professional development courses are Department of Education approved and our Summer term qualifies for EPV days for primary teachers. Flexible, online and self-paced with the support of expert tutors. Transform your classroom into a positive space where your students can learn to flourish no matter what their challenges.

We provide practical fully online and part-time courses, up to Masters level, with the University of East London and Dublin City University. Ideal for those trying to juggle the demands of today's diverse classroom.

Our particular research concern is how a stronger sense of inclusion can be achieved and how optimum developmental outcomes for children and youth can be actively promoted. Proud partner on GOGREENROUTES, an Irish-led project on urban health and sustainability. Find out more about the ICEP Europe Online CPD Courses and their MA in Special & Additional Learning Needs with UEL at www.icepe.eu

safefood is a government body promoting food safety and healthy eating on the island of Ireland. Recognising teachers' important role in developing the habits of children, safefood provides educational programmes and resources to nurture food safety and healthy eating skills.

- The Rufus handwashing programme has been developed to teach children (Junior and Senior Infants) about good handwashing habits. Resources include a colourful storybook, sink posters, videos and games.
- MediaWise is packed with fun interactive activities that develop awareness and understanding of the media. It is a flexible 8 lesson resource with cross-curricular links and is tailored for Junior infants to 6th class.
- For handwashing and media literacy resources for primary school visit <https://www.safefood.net/education/primary>

At UrAbility we are changing how pupils with additional educational needs experience education. We are doing that by empowering teachers and SNAs to better understand the assistive technology out there to level the playing field for all pupils. Why not check out our self-paced online courses for teachers and SNAs, where they can learn to effectively use assistive technology and apps to support their pupils.

All of our courses are 20-hour in duration and are certified by the CPD Standards Office. We offer schools discounted membership pricing, so you can sign up once and add your staff as needed over the year. More info - <https://www.urability.com/schools>
